LEGISLATIVE AGENDA

Government & Ethics: We strongly support “fair map” redistricting and increased sharing of resources between units of government to improve efficiency.

Education & Workforce Development: Education is integral to the community and fosters a desirable quality of life that attracts and supports a thriving business environment.

Economic Development: We support economic development initiatives that will make our region's businesses stronger, healthier, and more prosperous.

OUR BRAND PROMISE

As a **CATALYST** for business growth, we provide numerous programs and resources to businesses and business leaders that create the jobs that strengthen the region.

The Chamber is a **CONVENER** of business leaders and community influencers. We leverage the scale and diversity of our entire region. We foster a culture of collaboration to address

challenges, create solutions, and enhance our community.

It requires a **CHAMPION** to defend business values and make bold steps forward on important business matters. Our advocacy efforts continue at all levels of government as we promote policies supporting job creation, business retention, and economic growth.

Budget & Taxes: We support a competitive and fair tax climate that promotes and fosters economic growth through private sector expansion and urge an equitable resolution to State pension and retirement issues that create a long-term, financially sustainable solution.

Transportation & Infrastructure: We believe transportation and infrastructure are vital to the region's economic growth.

Labor & Employment Law: We recognize the current and future challenges facing our region's

employers and support legislation that enables businesses to hire and maintain a skilled workforce.

Healthcare & Insurance Reform: We recognize change in healthcare plans and reimbursement structures give greater personal incentives to help manage costs.

Hospitality & Entertainment: We encourage initiatives that help the region secure a larger share of the multi-million dollar industry. We oppose expansion of gaming at the expense of existing establishments.
